

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

Claims 1-18. (canceled).

19. (currently amended): The electric wire insulating material according to ~~claim 17~~
claim 22,

wherein the fluororesin has a melt flow rate, at 372°C, of more than 60 (g/10 minutes).

20. (currently amended): An insulated electric wire comprising a core wire and the electric wire insulating material according to ~~claim 17~~ claim 22.

21. (currently amended): The insulated electric wire according to claim 20, wherein the core wire has a diameter of 0.02 to 0.13 mm.

22. (new): An electric wire insulating material obtained by insulating molding of a fluororesin,

wherein said fluororesin has a critical shear rate, at 360°C, of 240 to 290 sec⁻¹, and

said fluororesin comprises a tetrafluoroethylene/perfluoro(alkyl vinyl ether) copolymer and has a perfluoro(alkyl vinyl ether) unit content of 2.6 to 3.5 mole percent relative to all the monomer units.
